TORTOISE

INTRODUCING TORTOISE

We're excited to share the newest addition to our glaze families: Tortoise — a bold, hand-painted collection of 18 glazes, inspired by antique Victorian tiles, natural patinas and the slow work of time. Tortoise brings the past forward with rich, modern color combinations creating spaces that feel both timeless and current.

Each Tortoise glaze is hand-sponged with flowing, translucent layers that swirl across the crackled surface. This technique creates dramatic variation in the swirls and splashes of color, no two tiles are alike.

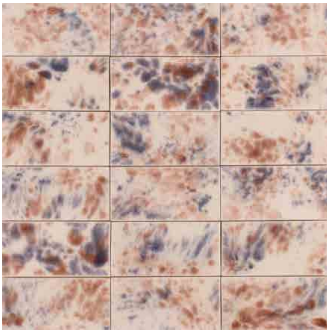

Hand Painted Tortoise colors are available to order on smooth field tile, use our versatile mini quarter round for a finished edge.

Explore the new Tortoise glazes today, and see how this bold spin on crackle can add depth, character, and vintage charm to your next project. We can't wait to see the magical spaces you create with them.
